1. The amendment filed on May 26, 2006 has been entered. Accordingly:
 - Claims 4-6, 9, 11, 13, 15, 17 and 19-21 have been cancelled; and
 - Claims 1, 7, 8, 14, 16, 24 and 25 have been amended.
2. On July 19, 2006, the examiner and the attorney, Mr. Donn K. Harms, discussed claims 1 and 8. The examiner informed that the upgraded search revealed some prior arts meeting the limitations of the amended claim 1. The prior arts, including Poon (US Patent No.; 6,305,820 B1) and Lin (US Patent No.; 4,499,755), meet the limitations of the amended claim 1. Therefore the amended independent claim 1 is still rejectable over prior art. The examiner further indicated that cancellation of the amended independent claim 1 and all of its dependent claims is needed in order to place this application in the condition for allowance.

In response, Mr. Harms authorized an examiner's amendment requiring cancellation of the amended claims 1, 7 and 24; and original claims 2, 3 and 22.

A copy of the interview summary is attached herewith.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Donn K. Harms on July 19, 2006.

Cancel claims 1 (amended), claim 7 (amended), claim 24 (amended); and claims 2, 3 and 22.

Allowable Subject Matter

4. Claims 8, 10, 12, 14, 16, 18, 20, 23 and 25 are allowed.

The prior art of record, including Huang ('332 B1), Gibboney ('313 B2), Lin (US Patent No.: 5,622,425) and Lanzisera ('147), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose a decorative string light combining:

- a transparent or substantially translucent casing attached to and encasing a substantially transparent or translucent socket assembly as recited in the amended independent Claim 8.
- a third wire communicating between first and second wires; and the third wire communicating electrical power for light emission means as recited in the amended independent Claim 8.

The above-indicated combination, including at least one socket including a substantially transparent or translucent socket assembly further surrounded a translucent of transparent casing, makes this invention unique.

Neither combined nor individual teaching of Huang ('332 B1), Gibboney ('313 B2), Lin (US Patent No.: 5,622,425) and Lanzisera ('147) discloses an illumination device with the combination as detailed above, as claimed by the applicant.

Therefore, each of the amended independent claims 1 and 8 are allowed over prior art.

Claims 10, 12, 14, 16, 18, 20, 23 and 25 are necessarily allowed because of their dependency the allowed amended Claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
